WORK EXPERIENCE

Open Content for Development (oc4d.org)   Salt Lake City, UT
Web Development Intern   June 2016 - Present
Exported website, built with Wordpress and Mediawiki, from shared hosting on Blue Host to a Digital Ocean box, implemented with multiple servers using Docker. Wrote scripts in Bash and Node, which automate the launch and build of our multiple Docker containers/servers. Gained experience in managing, exporting and importing MySQL databases, while also gaining a good working knowledge of the Wordpress and Mediawiki file systems. Currently working on re-designing the front-end so that we can remove the Wordpress site and present everything more effectively from the Mediawiki homepage.
